

Martin Gibling

Message from the Chair

It is my great pleasure to inform you that Dr. Martin Gibling (Professor Emeritus, Dalhousie University) is the 2018 recipient of the Middleton Medal. In the course of his career Martin has made significant contributions in the field of fluvial sedimentology. Martin's research has addressed a broad range of topics and questions pertaining to fluvial systems from facies models and stratigraphic architecture of fluvial deposits to interactions with marine systems and the response of fluvial systems to development of vegetation. Martin has also investigated the response of fluvial systems to cyclical changes in climate and other external forcings. Throughout his career, Martin has also contributed greatly to our understanding of the sedimentary geology of eastern Canada, most notably the succession at Joggins, Nova Scotia, which has since become a UNESCO World Heritage Site! This would not have happened without Martin's contribution and leadership. In addition, Martin has trained numerous students and several post-doctoral fellows and has given exemplary service to the scientific community. Congratulations Martin for a great career!

There are several national and international meetings of interests to the Canadian sedimentology community. Of special mention to our members, there is the **Resources for Future Generations** (RFG 2018) conference in Vancouver, which is just around the corner and, in August, the International Sedimentological Congress (ISC) in Quebec City.

GAC-MAC part of RFG in Vancouver 2018

This year's Annual Meeting of the Geological Association of Canada (GAC-MAC) is part of the **Resources for Future Generations** conference which will be held June 16-21, 2018 in Vancouver, BC. Visit <http://www.rfg2018.org> for more information.

ISC 2018 in Quebec City

This year, Canada is host of the International Sedimentological Congress! Many great field trips, program sessions, and networking opportunities await you. Make sure not to miss that international event! Visit <http://isc2018.org/>

Middleton Medal 2018 Reception

The Middleton Medal will be awarded to Dr. Martin Gibling in Quebec City during the ISC in August (see above). This special event will take place Friday August 17 during the closing ceremony of the ISC. More details will be communicated later.

CSRG Annual General Meeting

Our annual meeting will take place during the RFG in Vancouver. Details will be emailed ASAP. Also, please send agenda items ASAP to maross@uwaterloo.ca

Student field trip subsidies

CSRG is pleased to offer financial support to students to participate to a sedimentology-related field trip at RFG or the ISC. Students: Don't miss out on this opportunity! Supervisors: Please tell your graduate students about it! Don't wait... Send your application to the CSRG Chair ASAP!! For more details, please visit:

http://www.gac.ca/wp/?page_id=10462

Other meetings

Another meeting of great interest to sedimentologists is the upcoming CSPG Gussow Conference in beautiful Lake Louise, October 8-11, 2018. Please visit www.cspg.org for all the details.

In 2019, GAC-MAC will be in Quebec City (we just all love this place so much!).

CSRG Executive

Chair: Martin Ross (Waterloo)

Vice Chair: Janok Bhattacharya (McMaster)

Past Chair: Elizabeth Turner (Laurentian)

Treasurer: Robert Sharp (Consultant, Alberta)

Eastern Councillor: Galen Halverson (McGill)

Western Councillor: Brian Pratt (Saskatchewan)

The CSRG does not have an official Social Media account, but feel free to follow the current Chair on

Twitter: @StrataMRoss
