

**THOMPSON RIVERS UNIVERSITY**

## **Sessional Teaching Positions GEOLOGY**

*Applications are invited for an instructor or instructors to teach the following courses (view official posting and submission process at <https://tru.hua.hrsmart.com/hr/ats/Posting/view/20443>):*

### ***FALL TERM: September – December 2021***

**GEOLOGY 1110—Introduction to Geology:** two sections, comprising three, 1-hour lectures per week, with up to 40 students in each section. One section will be simulcast to TRU's Williams Lake Campus.

**GEOLOGY 1110 LAB:** up to 4 labs, labs are 2-hour each with up to 20 students per lab (the number of lab sections depends on enrolment)

**GEOLOGY 2070—Forensic Geology and Geologic Hazards** (3 hours per week)

### ***WINTER TERM: January – April 2022***

**GEOLOGY 1110—Introduction to Geology:** one section, comprising three, 1-hour lectures per week, with up to 40 students in each section

**GEOLOGY 1110 LAB:** up to 2, 2-hour labs with up to 20 students in each lab

This is a sabbatical replacement opportunity. The mode of delivery is in-person however health considerations may require delivery to be synchronous online. Labs and lectures are well developed for both delivery modes.

**QUALIFICATIONS:** A Ph.D. in Geology, or PhD near completion, or M.Sc. with previous geology teaching experience at the post-secondary level.

**APPLICATION DEADLINE:** Applications will be reviewed beginning **July 23, 2021**. The position will remain open until filled.

**REMUNERATION:** \$6,754 per 3 credit course. Labs are remunerated at 1.5 credit hours.
