

Department of Earth and Planetary Sciences

McGill University

(www.mcgill.ca/eps)

The Department of Earth and Planetary Sciences (EPS) at McGill University invites applications for a full-time Faculty Lecturer. The selected candidate must have a PhD in the Earth Sciences at the time of appointment. While the language of instruction at McGill University is English, fluency in both English and French is preferred.

We seek candidates with prior research and teaching experience in structural geology, field geology methods, or closely related topics, along with a record or demonstrated interest in teaching field courses and/or conducting field-based research in eastern Canada. The successful candidate will teach introductory Earth science courses and intermediate level courses that contribute to the academic requirements shared by most professional orders of geology and environmental geoscience in Canada. Other teaching may include advanced undergraduate or graduate level courses in the candidate's area of expertise. The successful candidate will also contribute to the delivery of our academic programs, development of new courses and curricula, student advising and mentoring, and other departmental and university functions.

McGill University is one of Canada's leading research and teaching institutions, located in the heart of Montréal, Québec, a historic and cosmopolitan city recognized as one of the top student cities globally. The successful candidate will join a dynamic department committed to excellence, equity, and inclusion in teaching, student supervision, and research, with exceptional opportunities for experiential learning.

The initial appointment is for 3 years, with the possibility of re-appointment. After 6 years of continuous employment, re-appointment is for an indefinite term. Promotion can lead to a Senior Faculty Lecturer position. Salary will be commensurate with qualifications and experience.

Qualified candidates are invited to apply through the website

https://mcgill.wd3.myworkdayjobs.com/McGill_Careers/job/Adams-Building/Faculty-Lecturer_JR0000056517

The application package should include a *curriculum vitae*, the names and email addresses of three references, and a teaching statement that discusses how the candidate's teaching interests align with the academic programs in the Department of Earth & Planetary Sciences and describes how the candidate will incorporate principles of equity, diversity, and inclusion into their approach to student instruction and mentoring. References will be contacted directly following a preliminary screening of applications. Review of applications will begin September 15, 2024.

McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.

At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, or that may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures. Persons with disabilities who anticipate needing accommodation for any part of the application process may contact, in confidence, this email or phone at 514-398-2477.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
